# Prevocational Medical Training Management Software

*Designed & Developed in Australia  
for Australian Teaching Hospitals*

Specifically designed for prevocational medical training including PGY1/2/3+ and WBA candidates

Plan hundreds of rotations and assessment requirements within minutes

Track assessments, due dates and send reminders in one click

Automated email notifications sent to Assessors, Junior Doctors, Sign off authority and Administration

Plan and manage events, seminars, workshops, send invites, receive RSVP's and mark attendance with ease

"We cannot thank your team enough, the huge improvements in H.Prime has dramatically reduced our workload and has improved the effectiveness of the WBA program. We hope many other providers will also get to benefit from this wonderful software.

Thank you, thank you, thank you!"

**Nikita Sidhom**, WBA Project Officer

**Plan > Assess > Manage > Track > Communicate**

H.Prime reduces the administrative load of assigning and tracking assessment requirements. H.Prime is making it easier for Junior Doctors and Assessors to meet assessment requirements on time.

Innovative Online Solutions

## Making it easier

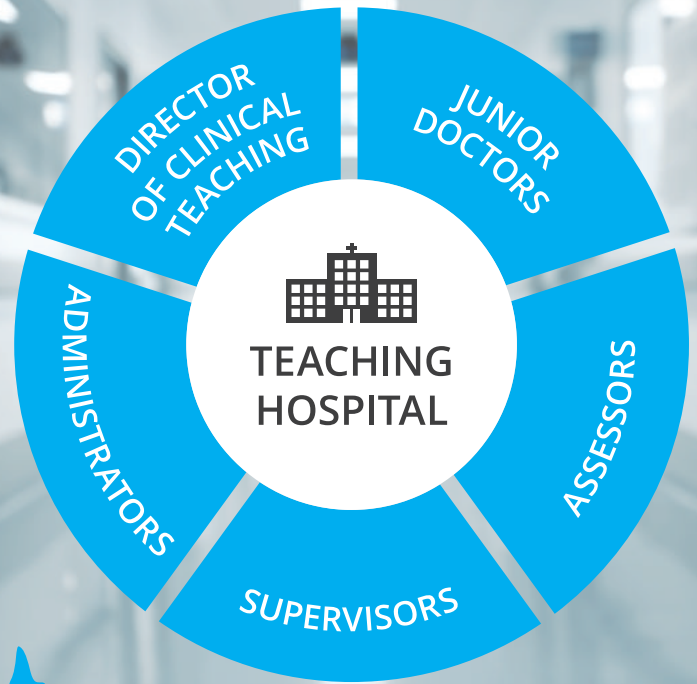

H.Prime facilitates different roles within and outside your teaching hospital. H.Prime makes it easier and less time consuming for Junior Doctors and Assessors to meet the requirements on time and in a structured way. It greatly reduces the administrative load of assigning & tracking rotations and assessment requirements.

You can rely on H.Prime.

## Support & Maintenance

At JAM Web HQ we have a help desk system which tracks your request and we work within a 1 hour response time. We have a 30 day database backup with continuous security and performance monitoring.

We're here to help.

From 2017 the CCLHD Workplace Based Assessment (WBA) candidates have completed all assessments using the H.Prime System. H.Prime is an easy to use and efficient electronic platform that enables the WBA program to ensure that each assessment meets the Australian Medical Council (AMC) guidelines.

From initial consultation H.Prime has provided ongoing immediate assistance with any of our concerns and has been able to meet all of our various requests thus tailoring the program to meet our needs.

H.Prime has enabled improved efficiency and ensures that we are meeting the AMC requirements. This software program has an easy to use interface and vast versatility, the responsiveness of the support team has been outstanding and is a major benefit of this fantastic program.
